

Working together to prevent suicide + help save lives.

# CONNECTING IN CRISIS

Breaking down barriers in suicide prevention

THURSDAY,  
MAY 2, 2024  
12-1PM

This webinar offers an overview of an effective crisis response framework and its practical application.

It will equip participants with the knowledge and tools to confidently provide support to individuals who are at-risk, in crisis and/or thinking about suicide.

Structuring Crisis  
Communications

Step-by-step crisis response model centered around empathetic communication to better navigate the nuance and complexities of unique, individual experiences.

Impact of Stigma on  
Effective Prevention

Addressing and debunking myths and misconceptions among clients, providers, friends, families, and communities. Examining how these beliefs contribute to stigma and hinder prevention efforts.

Unlocking Additional  
Supports

Recognizing that suicide prevention extends beyond just clinical services, encompassing the intricate interplay of various factors with individual needs to maximize support. Prioritizing quality over quantity and mindfully aligning any referrals with individual needs.
